The residential garbage and recycling program in the City of Waukesha has switched to automated collection in most parts of the city. This means that a garbage truck will pull up to the curb in front of residences and by use of a mechanical arm system, will pick up, dump and return your cart(s) to the curb.

To facilitate this change, wheeled garbage and recycling carts have been provided to residents with curbside pickup. These carts must be used for the collection of garbage and recycling material. The carts have wheels and handles which make it easier to maneuver.

The only exceptions are properties which have alley pickup of their materials – these properties will not be getting the wheeled carts. Instead, residents will continue to set out materials in the alley in regular garbage bags, cans or recycling bins.

To assist persons with disabilities or other reasons of hardship and do not have the assistance of anyone else in the household to help, the City of Waukesha has contracted with Advanced Disposal to provide Walk-Up Service to persons who qualify.

Qualified residents must:

1. Be physically unable to wheel their cart to the curb for collection.
2. Have no one else who can assist them, such as a spouse or other live-in family member or a personal assistant.
3. Be certified by a physician as needing assistance.
4. Fill out and return the required request for exemption form (page 2).
