RE: Brookfield Square stop-temporary change-effective Wednesday, May 1, 2019

As construction continues at Brookfield Square, another temporary stop will be necessary at Brookfield Square. The stop on the short 1 block road connecting Executive Dr. and Main St. will not be available for approximately 2 months due to continued road construction at Brookfield Square. Although Waukesha Metro and MCTS are being moved to an area near the old Boston Store, that stop was not deemed feasible by Brookfield Square for Waukesha County Express routes #901 and #905, after a few weeks of discussions.

Beginning, Wednesday, May 1st, the bus route for the next 2+ months will use Executive Dr. (both southbound and northbound) between Bluemound Rd. and Brookfield Square Rd., and use Brookfield Square Rd. (both eastbound and westbound) between Executive Dr. and Moorland Rd.

Therefore, for approximately 2 months, the Brookfield Square stop will be on Executive Dr. For the westbound drop-off the stop will be on the east side of Executive Dr. about 1 block west of the current stop we have been using. It is just south of a driveway. For the eastbound stop, the pick-up will be on the west side of Executive Dr., across the street from the westbound stop and slightly south of the westbound drop-off. Temporary signs will be posted. A map below shows the stops we will be using on Executive Dr.

We are sorry for this inconvenience and late notice as our discussions with Brookfield Square were not completed until Friday evening.
